Clarke Road Extension Ribbon-Cutting Ceremony to be held on December 10

OCOEE, Fla. – The City of Ocoee will host a ribbon-cutting ceremony for the opening of its Clarke Road extension project. The ceremony will be held on Thursday, December 10 at 10 a.m. at the north side of the Clarcona-Ocoee Road and Clarke Road intersection. The public is invited to attend.

The two-lane road extension provides a third north-south connection between Clarcona-Ocoee and McCormick Roads. The nearly one-mile stretch of road will help relieve traffic congestion on nearby Ingram Road and CR 435. The \$3 million project also provides a complete connection from McCormick Road to West Colonial Drive and it creates a second entrance to the Arden Park subdivision. Additionally, the new section of Clarke Road includes an 8-foot wide sidewalk that connects to the West Orange Trail. The road improvement project is part of the city’s comprehensive plan to establish additional access for future development north of Clarcona-Ocoee Road.

For more information, please call the city’s Development Services Department at 407-905-3100 or visit www.ocoe.org.
